Mirroring Settings for a Windows 7 Machine

These are the Mirroring settings so a disc will burn the recording to disc after recording is STOPPED. And the system will prompt user to format the disk.

- 1. Open the recorder.
- 2. Select *View* then *Options.*
- 3. Select the *Mirroring* option
- 4. First, check that the *Enable Mirroring* box is checked.
- 5. Next, check that the *After recording has stopped* button is activated.

6. Then click the *Advanced...* button and set the following options. When finished click the *OK* button.

Advanced Mirroring Settings				
Safety mirroring				
Complete unsuccessful mirroring				
Mirroring on CD/DVD				
🔘 Use ISO-data format				
 Use Universal Disk Format (UDF) 				
Autoformat blank disc (not available, details are here)				
OK Cancel				

7. You will be brought back to the *Options* window. Click the *OK* button. **Do NOT set any settings in the Burning Option.**

When the court reporter is ready to record they should insert the CD-R/DVD-R disk. Windows 7 will prompt to format the disk. See <u>Instructions</u> <u>for Digital Recording and Transcribing Court Proceedings – page 4</u>.
