ESSAYS/PERSONAL STATEMENTS

28. What are your reasons for seeking this position? *(150 words or less)*

My grandfather was a well-respected circuit court judge for over 40 years in Christian County, Kentucky. I have always wanted to follow in his footsteps as an attorney and trial judge. I have

significant years of legal experience as a trial lawyer and litigator in large and small law firms in Shelby County handling all types of litigation matters including commercial, employment, family law, personal injury, and other litigation and know that I would be an effective trial judge. I have been active in the bar throughout my years of practicing law and have advised and represented multiple pro bono clients. I believe that I am known and respected by my peers. I would be committed as a trial judge to the fair and impartial administration of justice. I would also be open to new courtroom technology and other efficiencies to enhance the courtroom experience.

29. Describe the judgeship you seek (i.e. geographic area, types of cases, number of judges, etc. and explain how your selection would impact the court. *(150 words or less)*

I am applying for the Circuit Court, Division 9 position, which is one of nine Circuit Court positions in Shelby County. I have practiced before and know the judges in Circuit Court. With my complex tort and business litigation background, I would bring a different perspective to the Circuit Court in the handling of those types of claims. I have also had extensive experience handling e-discovery and computer forensic issues, which experience would be helpful to practitioners and other judges as these discovery issues become increasingly more important in civil cases. I also believe in the use of courtroom technology at trial and would encourage the Circuit Court and its practitioners to use such technology for hearings and trials. I believe that I can be an effective and innovative member of Circuit Court in Shelby County as the judge in Division 9.

30. Will you uphold the law even if you disagree with the substance of the law (e.g., statute or rule) at issue? Give an example from your experience as a licensed attorney that supports your response to this question. *(250 words or less)*

Yes, I will uphold the law even if I disagree with the substance of the law. Judges must apply the law and are bound by principles of stare decisis. As a licensed attorney, I have disagreed on occasion with a court's decision and had a different interpretation of the law. Nonetheless, I still supported and respected the court's decision. I believe an attorney owes a duty to the client to instill that same respect for the court's decision and seek a different result either by appeal or legislative change.
